- ② Lens Bag x 1
- ③ IR Filter x 1
- ④ IR Filter case x 1
- ⑤ User manual x 1

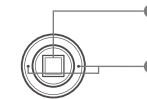

2. Parts of device

Brinno Lens

- ① Top cover
- ② Bottom cover
- ③ Zoom
- ④ Aperture
- ⑤ Focus

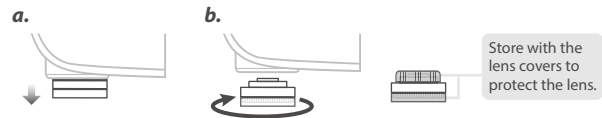

IR Filter

- ① Glass
- ② Driving Holes

3. Installation

3-1 To remove the current lens kit(BCS 019) from TLC200 Pro

a. Turn TLC200 Pro face down to the floor to protect against dust getting on the sensor. **b.** Rotate counter-clockwise to unlock the BCS 019.

3-2 To install the IR Filter on the TLC200 Pro

a. Rotate lens upwards, then place the IR filter horizontally. **b.** Screw in IR filter with fingers. **c.** Insert the screwdriver* from TLC200 Pro into one of the driving holes, turn clockwise until tight.

* For more information, please refer to the TLC200 Pro manual page 5(Package Content).

⚠ IR Filter works with BCS 019, BCS 18-55 and BCS 24-70. It's recommended to keep IR Filter on TLC200 Pro.

BCS18-55_Manual_EN_A3(301-0064-01)

(140x180mm) 80P白模造紙，單色印刷，十字折，成形尺寸: 80x70mm

3. Installation

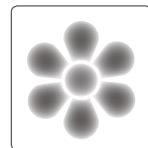

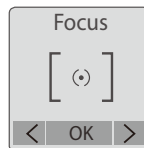

3-3 To install Brinno Lens (BCS 18-55) on TLC200 Pro

Remove the bottom lens cover and turn the BCS 18-55 clockwise to install the lens on the TLC 200 Pro.

  Be careful when using different lens, the TLC200 Pro may tip over due to the gravity center shift especially without batteries.

4. Focus Adjustment

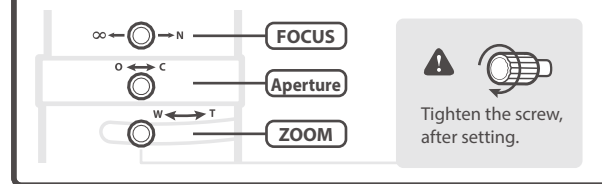

Adjust the lens focus

Go to the "Focus" menu (Time Lapse Camera TLC200 Pro), see the enlarge preview screen. Rotate the lens to focus object.

 For more information, please refer to TLC200 Pro manual page 16.

Manually set up
